with

Quest Academy

Hosted in Deerfield, IL

A unique
neighborhood
event to get to know
Quest Academy
for your child.

Join us for a unique neighborhood event!

For over 35 years, **Quest Academy** has been challenging and inspiring gifted children in preschool through eighth grade to grow as learners and leaders. With a dynamic approach to advanced academics and innovative teaching methods, Quest Academy engages curious students in core learning concepts, fine and performing arts, and future-minded topics such as Artificial Intelligence through an exclusive partnership with Microsoft. What will your child create in our innovation lab? Quest Academy understands the gifted learner and integrates social emotional learning opportunities into the daily school experience to accompany the advanced academics.

We invite you to get to know Quest Academy through this unique neighborhood event. Hosted in the private home of a current Quest Academy family, this open house-style event will feature conversations with teachers, students, administrators, and parents. **Stop by on Sunday, January 26th between 2:00-4:00 PM**; a brief formal presentation will start at 2:30 featuring remarks from Head of School, Jacquelyn Negus.

Hosted by: Brad & Meredith Schulman (1528 Woodbine Court, Deerfield, IL 60015)

For additional information and to register for the event, please visit www.questacademy.org. We look forward to introducing you to Quest Academy!
