

Virtual Deskside Briefing: Thursday, **September 28th**

Compass Health Center Introduces Adolescent Mental Health & Substance Use Program, Prioritizing Timely Access to Care

Comprehensive, Specialized Treatment for Children and Adolescents

Who should join:

School Leaders, Clinicians, Parents and Community Members are invited to a special Deskside Briefing.

Our Chicago location leaders will provide an overview of the unique treatment needs of youth struggling with co-occurring mental health and substance use concerns. Specific psychiatric and psychopharmacological interventions and approaches will also be covered. This briefing will provide an overview of the treatment approach, structure, and services provided in our program and how they lead to optimal treatment outcomes for patients and families.

Key Takeaways:

- Understanding of the importance of early intervention for adolescents struggling with substance use and mental health disorders to introduce adaptive approaches to coping and expand support
- Understanding of the unique impact of substance use on adolescents with mental health concerns, including impact on brain chemistry, as well as potential psychopharmacological interventions to support patients in treatment
- Understanding of the structure, approach and supports available within the MHSU program at Compass

Presenters:

Ann Bystedt, LCSW
Senior Director
Child & Adolescent Programs, Chicago

Dr. Nick Hatzis, MD
Medical Director
Child & Adolescent Programs, Chicago

Adam Honecker, LCSW
Director
Adolescent Program, Chicago

Date: September 28, 2023
Time: 12:00pm - 12:30pm CST
