July 29	Let's Talk: The Doctor Is In	\$10

All Webinars begin at 7pm CST - Live attendance not required. Registration includes a recording of the presentation.

As a board-certified psychologist specializing in addiction treatment, worried parents reach out to me all the time, wishing they knew more about how to help their kids navigate middle and high school in a safe and healthy way - mentally, physically and emotionally.

That's why I created this webinar series

My goal is to make this information accessible, readily applicable and easy to understand. Let's talk about it.
